SKILLS

- Academic Writing
- Critical Thinking
- Data Analysis and Interpretation
- Editing and Proofreading
- Effective Communication
- Interdisciplinary Collaboration
- Leadership
- Science Communication
- Time Management

LANGUAGES

- English (Fluent)
- Spanish (Fluent)
- Portuguese (Intermediate)
- Galician (Fluent)

PROFILE

Ana Ribas-Rodriguez is a Ph.D. student in Computer Science at the University of A Coruña and a visiting scholar at University of Miami. She holds a B.S. in Psychology and a M.S. in Neuroscience. Her research focuses on incorporating concepts of neuroscience into machine learning to develop more brain-like approaches. She is interested in artificial intelligence/machine learning, deep neural networks, the development of brain-like approaches and how the brain compares to computational models such as deep neural networks.

CURRENT

Universidade da Coruña
PhD Student

2021 - PRESENT

- Develop new brain-like algorithms
- Write on journal papers on computer science and neuroscience fields.
- Data analysis and data preprocessing

EDUCATION

Universidade de Santiago de Compostela

2019 - 2021

- Master on Neuroscience

Universidade de Santiago de Compostela

2015 - 2019

- Degree on Psychology

INTERESTS

- Writing
- Any outdoor activities like camping, hiking...etc
- Drawing
- Linux enthusiast
